From the Medico-Quirurgical Review, May 23rd.

It is well known amongst us that there is a scandalous adulteration of the principal alimentary substances, and we have therefore great pleasure in seeing a grease offered for sale which, according to the medical certificate of Professor Puiggari which we reproduce, joins the excellent qualities of a fine smell, good taste, and purity, which highly recommends it.

Certificate of Dr. Carlos Furst.

Having practically convinced myself that the Grease which you have prepared is pure and of excellent taste, I shall have the greatest pleasure in recommending its use.

CARLOS A. FURST.

The 'Nacion Argentina' publishes the following interesting letter from head-quarters, Concordia, July 9th.

The news this time is rather disagreeable than otherwise. On the 1st inst. General Urquiza started from Basualdo to have a conference with General Mitre at Concordia, and when about 12 leagues on the road, he was overtaken by couriers announcing that part of two divisions had broken up and gone to their homes, without committing any disorder. He immediately returned, picking up several groups on the way, who obeyed him willingly and returned.

General Urquiza quelled the temporary disturbance, but remarking a spirit of discontent and disgust among his troops who had been now two months under arms, and in order to prevent the demoralization of his army or something worse, he prudently resolved to strike his tents and dismiss the men, which he accordingly did on the 6th and 7th inst., promising under his sign manual to bring them all together again in greater number and better spirits, within 20 days. This is simply all that has occurred, although many rumors are afloat, and the immediate cause is not yet known.

"The occurrence cannot fail to have some bad effect, but General Mitre was on the alert, and the rapidity of his measures will prevent the enemy taking advantage of the gap in our position, which will be speedily occupied by other troops.

"Within a few days the whole allied army will be on march. They were to have started to-day, but owing to a want of waggons, and to the rise in the rivers, it has been delayed.

"General Urquiza sent a deputation composed of General Virasoro and Colonels Victorica and Caraballo, who arrived this evening to confer with General Mitre, explaining the causes of the *emeute* and promising on the part of General Urquiza to assemble his army again. He is quite sanguine about getting up even a larger force than before, as he says if he had any doubt in the matter he would at once come in to General Mitre and ask for a musket to enrol himself among the ranks.

"On the 7th inst. Col. Conesa put his three 'crack' battalions through their exercise: the column and platoon firing was admirable. The spirit and *morale* of these men is excellent: every night they have serenades. There is plenty of firewood and good water. The artillery brigade went through drill yesterday, with 9 field-pieces and waggons. Although the horses and mules were new, they made their evolutions at full gallop, over hill and dale: the sight was splendid. This brigade is getting plenty of mules, oxen and carts, and will be ready to march soon.

"The Montevideo troops camp alongside of us in the fullest fraternity. I forgot to tell you that our army in the Ayui received the news about the *emeute* in Urquiza's army with great serenity.

"The Paraguayan forces of Santo Tomé have come down, occupying the town of La Cruz and advancing, by latest dates, two leagues this side of that place. Colonel Payba has come to this side of the Arroyo Guavirai, still keeping the enemy in observation and firing at him. A small troop of 50 of our horses fell into the hands of the invaders, but the men escaped and rejoined Col. Payba's division unhurt."

ANOTEER VERSION OF THE AFFAIR.

RETURN OF 300 MEN.

The 'Uruguay' of Concepcion, 8th, gives the following account:—

"We have dates from Urquiza's head-quarters at Basualdo to the 5th inst., with disagreeable news. The Capt General being invited by the President of the Republic to a council of war at which the Brazilian General, Osorio, was also to attend, H. Excellency (Urquiza) accompanied by Dr. Victorica set out for the rendezvous, but was overtaken half way by a messenger from General Virasoro, who had remained in command, announcing that the Nogoyá and Victoria divisions had marched away, shouting 'Hurrah for Urquiza,' and declaring that as the Cap. General was gone they would serve under no other officer. As the disorder had extended to some other divisions, His Excellency found it necessary to return, and immediately suppressed the mutiny.

About 300 men of those who had left, returned to their ranks. The disturbance was caused by some evil-disposed persons who circulated bad reports, saying that Urquiza was gone not to return. The Entre-Rian soldiers are proverbially fond of their great chief, and will certainly return when the matter is explained.

The various officers and chiefs are running about in person, picking up the fugitives. Within a short time the Entre-Rian army will be larger than before, being reinforced by many *corps* recently called out. They formerly numbered only 9,000 and will before a month amount to 12,000 men.

EDITOR'S TABLE.

Yesterday was a great day for news in town. The Rio de la Plata arrived from Concordia, bringing still later dates from the allied camp. We received a letter from our correspondent in Salto, but as it contains many hearsay statements about General Flores and his men, we deline publishing it until we know more of the matter; besides, as the country up there is so much split up by faction, and our correspondent an English gentleman who probably hardly knows the difference between Blancos and Colorados, we place all news from the Banda Oriental in quarantine until we know the source.

The Rio del Plata brought among other passengers General Caraballo. He has left for Montevideo last night on a mission to the Oriental Government.

It is now positively known that Gen. Urquiza has retired to his estancia at San José.

We learn that Virasoro had a conference with General Mitre, before embarking at Concordia: the tenor of it is not known. He leaves for Rosario.

The Mersey will arrive to-day: Capt. Curlewis when leaving promised to be here on the 13th.

Our old friend, Mr. Wallace, the engineer of the Rio de la Plata, leaves in this packet for England. He goes commissioned to bring out another Villa del Salto. He is a man of great experience, knows better than any one else what description of steamers is suited for the Uruguay traffic, and, we are sure, will not bring out a steamer like the Rio de la Plata, which rolls so unmercifully, that to look at her is enough to make one sea sick. The Rio de la Plata is a steamer every way suited for the Rosario route, but quite unfit to run between Buenos Ayres and Montevideo. Owing to the peculiar construction of her cabins, when she gets where there is the least sea, she rolls like a cradle from side to side. Mr. Wallace is fully aware of this defect, and, we feel certain, will have more compassion on the R. Plate public than to bring out such a magnificent sea-sickening boat.

Native estancieros, who are short of hands on their estancias, can always find 'puesteros,' and 'medianeros,' by applying at our office. We make no charge whatever either to employer or employed, as our sole wish is to be useful and do good.

At the saladero of Messrs. Cabal and Williams, our countryman, Dr. Fleury, is salting and preserving beef and mutton on a most extensive scale. A cargo will be ready for shipment to Liverpool shortly. We have been promised samples.

Yesterday, we received from another English lady some lint, &c., for the wounded Argentines and Brazilians in the hospital. We forwarded all we received up to the present to the Commissary, who, we doubt not, will duly acknowledge same. Still what we have received is a mere trifle, and we again appeal to the foreign ladies in this city on behalf of the poor wounded fellows in the hospital.

The auctioneers in town are beginning to find business so dull, that they are now selling plants, garden flowers, &c. We suppose they will next turn their attention to cabbages and potatoes. We see almost daily notices about hundreds of 'eucalyptus globuluses' to be auctioned off, but they fetch no prices. If the bidders were only half as numerous as the auctioneers, things would sell better.

To-morrow the great Cordova land auction will take place at Mr. Billinghurst's, in Calle Potosi. We purpose attending, in order to give a proper report of the public sale of a no inconsiderable piece of Argentine territory.

Yesterday the funeral of Mr. John Wallace, of San Antonio de Areco took place. Is was very numerously attended.

The Estrella del Norte, Capt. Price's steamer, now runs to Rosario. The agency of this steamer has been removed from the Calle Cuyo to No. 122 25 de Mayo, where our friend, Mr. Dowse, will be most happy to book passengers for all parts of the Argentine Republic.

Colonel Arredondo, about whose safety there was such anxious fear, we are happy to say is safe, having, after a circuitous march of 55 leagues, come up with Paunero, with whom he at once incorporated.

Letters from Admiral Murature's vessel state that the Brazilian squadron has been reinforced, but remains inactive. A Spaniard was caught in or near Empedradrado, and although he had his passport, was shot in that town as a Correntino.

There never was a time when Government could so clearly see the necessity of buoying the river as at present; scarcely a single transport or Government steamer can be sent up or down the river that she does not run aground. The Pampero, which took the Santa Fé correspondent on board the other day at Rosario has run aground in front of the Dos Hermanos. The cost of buoying the river would be trivial in comparison to the expenses incurred in repairing the vessels' bottoms and supporting the soldiers whilst the steamers are aground. We could wish to see Congress take the matter up and grant a concession to a competent party to buoy the rivers Plate, Parana, and Uruguay.

We regret to notice the death of Mr. Elortondo, a respected and wealthy native merchant of this city. The funeral ceremony which took place on Tuesday was attended by all the leading men of Buenos Ayres.

General Barroso, who, we believe, is now Vice-Admiral, has presented Col. Caceres, of Corrientes, with three pieces of light artillery, which is a most opportune gift to the heroic Correntino officer, who has manfully held his post against the Paraguayan army with only a handful of men.

The great scarcity of steamers on the Montevidean route is now beginning to be felt a most serious inconvenience. The man who comes up to Buenos Ayres or goes down to Montevideo, cannot say when he shall return. The French steamer and Tevere were packed full with Montevidean passengers last night. Messrs. Buschantal, Makinlay, Beare, Bell, and a whole host of others went off last night. Many of our friends have been five and six days waiting for a steamer.

We hear the greatest complaints by the holders of roads and bridges stock, against the Government for refusing to pay the coupons, unless presented on a $35 stamp. The Minister, we hope, will abolish this rule, as otherwise it will prove highly injurious to the stock in question. No one will touch it, in consequence of the unprecedented rule of paying stamp duty to collect the coupons.

Mr. Rickard, of the San Juan mines, is expected to arrive in Buenos Ayres next month from England, where he has been arranging the formation of a new silver mining company.

The last place we hear the Brazilian squadron was anchored at, was the Chimborel, a place between Bella Vista and Goya. The Paraguayans not having advanced, the rumor about a new battery on the banks of the river at Goya must be manifestly incorrect; still, according to our Esquina correspondent, grave fears were entertained that the enemy was again about to approach Goya.

Yesterday, the Bishop of Buenos Ayres, Dr. Escalada, left this city for Montevideo. He goes on a special mission to that city to consecrate the Apostolic Vicar, Dr. Jacinto Vera. The following clergymen were invited to accompany the Bishop in his mission: Rev. Dr. Arcediano, Dr. J. J. Alvarez, Canon Pinero, &c.

A regiment of picked riflemen has recently arrived at Concordia from Brazil. We hear the most flattering accounts of the appearance of this regiment; the soldiers are all crack shots, and armed with the Minie rifle.

On Tuesday evening Mr. Thornton, the British Minister, entertained Dr. Octaviano, the Brazilian Minister, to dinner, at the Legation. Dr. Costa, the Argentine Minister of Education, also gave a dinner to the Brazilian Minister the evening previous.

Three of the Provincial Governors have already taken the field: the Governors of Tucuman, Santiago, and Rioja. In Argentine history there never was a time before when so many rulers took the field in 'propria persona,' as at present.

The Espigador in her last trip down seems to have left the Rosario mail-bag behind, as no Rosario newspapers were received by any one in this city. It is not probable, however, that they contained any very stirring news.

The steamer Victoria, which belongs to our landlord, Sr. Lezama, is expected in to-day from Esquina. She will probably bring news of importance.

The war and the 'hegira' of Sr. Pestalardo, have had an immediate effect on kid gloves, which last week were selling at $40 per pair, and to-day can be bought in any shop in town at $30 to $35.

The British barque Margaret, which arrived on Tuesday from Glasgow, brought 560 kegs gunpowder, and a few hundred tons of coal; both articles sell remarkably well at present. The Oberon, from Glasgow, which also arrived same day, brought a full cargo of railway materials for the Argentine Central Railway Company.

A judicial auction will be held at the Cabildo this evening—a small estancia a little over a quarter of a league, with some houses, &c., on it, situated in the partido of Flores. We advice some of our friends to attend, as it may go cheap.

We perceive in the Treasury list published in the papers that the Government has ordered to be paid the coupons on the roads and bridges bond to A. Coquetaux $263 s. and to H. N. Hart $225 88 s. We are surprised these coupons are not paid the same as the other coupons. The Government has paid within the last few days Sres. Lezama and Galvan for expenses of Entre-Riano army $32,000, and to Alvarez and Risso for carrying up the troops to Concordia $549 s. The disbursements of the Government are at present stupendous. We notice great arrivals of wheat and maize from Entre Rios and Santa Fé. This looks well, and shows that the agricultural industry of the country is augmenting.

The heirs or creditors of a defunct black man named Manuel Orma are called to send in their claims; it appears that Orma died possessed of very considerable property.

Since the war commenced we notice a great disposition, on the part of native estancieros, to sell their estancias every day. We have some half-dozen in our office, who come to us thinking that we must know a number of buyers. A party of Englishmen left town last week to buy some 4 or 5 square leagues and fifty thousand sheep. In Entre Rios there is at present sojourning an English gentleman who has in his own right £15,000 a year. If he sees anything he likes he intends to invest.

We publish elsewhere a copy of the decree relative to D. Estevan Rams' concession of Rio Salado navigation-works. We have no doubt that Baron Mauá, now in London, will be able to form a company for the realization of this enterprise, the works of which are so far advanced that 264 leagues will be open for navigation next year.

The London, Buenos Ayres, and River Plate Bank has put up a handsome sign-board with the name of the Bank in gold letters.

THE PUBLIC CEMETERY.

We have often had occasion to speak of the disgraceful state of the Recoleta cemetery, and the absolute necessity of a new place being provided for the decent interment of the dead, if any regard is to be paid to the wealth and population of this growing metropolis. The present state of the Cemetery is scandalous, and such as, we fearlessly say without possibility of contradiction, would not be tolerated in the smallest and most obscure localities in any part of Europe. Such indeed is its condition, that, one of our subscribers who visited it on Monday last observed: it appears more like the ruins of the cemetery of a once civilized city, than the last resting place of the fashionable inhabitants of a town vainly called the Athens of South America. Close to the entrance of the place on Sunday there was an open coffin, which had once been covered by a thin brick tomb, containing the *half decayed* remains of a lad apparently about fourteen years of age—the skull was still covered with skin and hair, the bones still covered with portions of sinew and muscles, rotting in the clothes in which the body was interred, the fleshless feet rattling at a touch in their boots. Apart from the effects likely to result from the corpses thus putrefying in the open air, we cannot imagine any sight more distressing to mourners accompanying the remains of their friends to the grave, than that just described. Further on and near the boundary of the place there exists a heap of emptied coffins, evidently exhumed to make room for fresh interments, and exhumed in many cases long before their tenants had resolved into their mother dust. In one the long tresses of a woman and the remains of a feather head-dress were adhering to the boards; in nearly all pieces of decayed flesh, bones and clothing were remaining. Our informant's attention was then attracted by a crowd accompanying a pauper funeral. Their behaviour was quiet enough while the priest remained, but when he turned his back and the grave-diggers proceeded with their work, a most scandalous scene took place. Every shovelful of earth thrown out was composed of a mass of corruption, pieces of old coffin and bits of bones. The coffin below was smashed in to make room for the new one and a small baby's shell was thrown out entire. One of the bystanders, who was evidently a friend of the man being buried, with a blow of his fist broke the poor little infant's coffin open, and much to the amusement of a large circle of friends, attempted to drag the corpse out by the head, broke out its teeth, tried to tear off the little frock in which it had been buried and committed other indecencies, accompanying his actions with the grossest language addressed principally to his dead friend, whose funeral he was attending. Considering the number of roughs around the grave, who regarded this brute with admiration, our friends considered it imprudent to do more than protest aloud against such conduct, and retired from the place, wondering that the sextons who were present could allow such things to take place and doubting the boasted advancement in civilization of the city whose Campo Santo is permitted to remain in a state that is at once shocking to the feelings of the living and an insult to the memory of the dead.

THE QUINTEROS MONUMENT.

(By our Montevidean Correspondent.)

The Livi monument of the Quinteros martyrs will be handsome structure and it is to be a commenced at once. I entirely disagree with you as to the advisability of deferring the erection of such a monument "to a happier time" when peace "shall be restored." The step is to my mind, in a right direction—it has a moral object, and supported as it is by the generality of the population here, it is a species of social vindication against the blackest deed of treacherous cruelty ever perhaps practised in these countries.

As to its "tending to resuscitate party feeling," you need not feel alarm on this score. Those who applaud such a nefarious transaction have neither died morally nor physically. Their fit organ,—the 'Reforma Pacifica,'—brings home to us daily the sad truth that the supporters of that journal have learnt nothing and forgotten nothing. The unblushing effrontery of its assertions tally too well with the character and moral tendencies of that small circle of whose opinions it is the sole echo in the press. 'Resuscitation' involves at least a previous partial suspension of the functions of life and this is far from having taken place with respect to party feelings and factious hatred amongst the extreme parties here.

On the contrary the present hostile feeling towards the Government will last so long as the fallen party can indulge the fallacious hope for the much yearned for success of the Paraguayan invasion. The Government therefore has acted wisely in choosing a moment when no such act as the present one can intensify the bitterness of party rancour, to assert a moral principle, and give to society the occasion to condemn a new one of those repugnant crimes which stain the annals of all countries, but which if allowed in principle by a popular sanction would sap the very basis of good Government, and throw loose the bonds of society.

The extreme 'Blanco' party watch with intense interest and longing desire the progress the Paraguayans are undoubtedly making hitherto in the field. The news brought to-day by the Tevere from Concordia and Salto is nowise calculated to sooth the alarm of the supporters of the Government, or diminish the rising hopes of the disaffected. We are told on what would appear to be good authority that a large force of Paraguayans was on the receipt of last advices not far from Uruguayana. It is far from improbable that they are at the present moment already on our Cuareim frontier. It is however just possible that the news of the partial destruction of Lopez's fleet may stay the onward march of this invading column. Otherwise the country may have to mourn over its ruined homesteads and its pleasant pasture lands laid waste before the devastating advance of an army composed in the main of a brutalized and licentious soldiery. We shall have a second edition of the invasion of the Huns directed by a second Attila at

least as inexorable and relatively powerful as he who laid waste the fruitful plains and rich vineyards of Italy.

RIO SALADO NAVIGATION WORKS.

The Senate and Chamber of Deputies of the Argentine Nation assembled in Congress sanctioned with force of—

LAW.

Art. 1. We concede to D. Esteban Rams and Rupert, 'empresario' of the Salado navigation works a further term of three years, as he solicits, to date from the 31st of December 1866, for the fulfilment of his contract as contained in the law of Oct. 10th 1862.

2. The Executive is hereby authorized to create a port on said river between Navicha and Bracho, at the most convenient place, and to establish therein a Custom-house with officials and salaries as may be necessary, in case the 'empresarios' undertake to navigate so far, according to the terms of his contract and with the enjoyment of the privileges therein expressed, except the guarantee of nine per cent and exemption from one-half the import duties, and on the understanding that the concessions in favor of said port shall cease on the expiration of the present prolonged term.

3. It is understood that the concession for 30 years of navigation by steam on the Salado, the guarantee of nine per cent, and the exemption from one-half the import duties shall commence to date from the time the 'empresario' shall make the first trip to Matará and back, conformably with his contract.

4. Communicate this to the Executive, along with the petition presented.

Given in the Hall of Sessions of Congress at Buenos Ayres on the 8th day of July, 1865.

THE ORIENTAL CONSUL IN BERLIN.

(Our Montevidean Correspondent.)

The Oriental Consul-General in Berlin Mr. Sturtz, has been at length removed on grounds that fully justify such a measure on the part of any Government. Indeed the administration could not longer turn a deaf ear to those cogent arguments which have at last resulted in Mr. Sturtz's dismissal from the post he had so unworthily occupied. Sor. Andrada has been appointed to the Consulship in place of Mr. Sturtz. Curiously enough it now appears that this gentleman had resigned his post in consequence no doubt of his consciousness of certain dereliction of the duties of his office. His political proclivities were in noways a secret, and his last expiring phillippic against General Flores on his receiving the news of the downfall of that party which Mr. Sturtz had learned to love and cherish with such pertinacious energy—energy worthy indeed of a better and more respectable cause—had all the bitterness of a Junius letter, minus the talent. Indeed its calibre was almost too much for that exemplary—publication,—the 'Oeste' something,—in whose aristocratic columns Mr. Sturtz's elucubrations have regularly appeared under the protecting ægis of Herr Von —— its latented editor.

In sober sadness however, Mr. Sturtz with his ill-timed attacks on a party has had it in his power to do a vast injury to this country. J. P.

NATIONAL BONDS.

18,000 National Bonds cash, 37.

To-day was an exciting day on 'Change; the 'bulls' drove up patacons in the morning to 28.95, but failed to sustain the market. Private letters from Entre Rios speak so confidently of Urquiza, that specie receded in the afternoon. Some Bills of Exchange were passed to-day at 49¼. The most interesting topic on 'Change to-day was the new signboard over the English Bank; the letters are all beautifully gillt, and make the building look more like a bank than heretofore. Many think it bad taste, but we believe that it is most necessary, as there are so many strangers arriving here now with drafts, they find it difficult to make out the bank. We are surprized, however, the name of the bank is not in English.

Politics were greatly discussed on the Bolsa, but merhants and brokers express the greatest confidence in the ultimate success of the allied cause. The National Bonds sell easy at 37, but the market is not prepared for any heavy amount as money is scarce. In the plazas there is nothing doing.

AUCTION SALE
by
MARIANO BILLINGHURST,
At his house Calle Potosi No. 70.

Of 80 square leagues of land in the province of Cordova, within 15 leagues of the grand central argentine railroad; by order of the commissioners of that government Messrs. Piñero, Teneiro, and Laberge; to be sold by a special law passed by the Legislature of the same province.

On Friday 14th July next, at 12 o'clock of the same day, will be offered on sale at public auction, under basis and conditions to be stipulated thereon. The above mentioned 80 leagues of lands, in 20 lots of 4 square leagues each, handing over to every purchaser a map of the lot he may purchase, regularly drawn out by the Government Civil Engineer, Señor Albano M. A. Laberge, annexed to it also a detailed description of the nature of the land, its watering places, woods, mountains, and other accidents of the ground. The sale will take place on the day and hour appointed, and in the presence of the Members of the Government Committee.

N.B.—We beg leave to call the particular attention of all foreign capitalists and enterprising farmers to the fact that they may now acquire lands in the province of Cordoba, for a very insignificant price, whereas, the same lands 5 years hence, when the railroad is completed and opened will no doubt be worth four times as much.

The reality and importance of the Central Argentine Railroad, is beyond all manner of doubt, therefore it is useless for us to dwell on the advantages the province of Cordova will reap from the working of such road, or of those that the parties settling now on the borders of the same will obtain from a locality so admirably adapted for sheep breeding, and from whence they can export the wool of their flocks dried to Europe, if they should so desire it. But we wish to call their attention, especially to the fact that may have escaped their notice, that Mr. Wheelwright is already working his way for the continuation of the same road unto Salta and Tucuman, and he has already very flattering answers to that effect from the present Governor of Salta whose ample cooperation is liberally offered, with promise to be ready to grant privileges and all sort of concessions. The day is not far distant in our opinion when sugar, brandy, rice, coffee, tobacco, and splendid timbers, the natural productions of the fertile and picturesque province of Tucuman will be brought to this market by the omnipotent power of steam. 164..16p j28.

Holloway's Pills.

This medicine has been constantly increasing in public estimation for years, and is now acknowedged to be the most wonderful remedy in the world. It acts directly on the system, removing all obstructions from the stomach, renovating the springs of life, and purifying the blood, eradicating liver complaints—that mainspring of so many diseases—indigestion, loss of appetite, pain in the side, and general debility. It is also a remedy on which the asthmatic may place the greatest dependence, and obtain perfect restoration to health. The hypochondriac and dyspeptic should resort to those invigorating Pills, which are capable of converting the gloomy shadows of their life into beaming sunshine, and bringing back those naturally happy thoughts engendered by a good digestion.

COTTON GINS.

The Report states that "the two Gins exhibited by Burgess & Key were found capable of ginning a greater quantity of Cotton than all the other Gins of different systems."

The many improvements made in these Gins by Burgess & Key, have been the result of experiments made on every variety of Cotton, and also from experiences in Egypt, India, Italy, Greece, Smyrna, Australia, &c., &c. where many of the largest Ginning Establishments, have adopted these Gins, and in one case twenty-one of them are used in one establishment, each of which will turn out 300 lbs. of clean cotton per hour."

The capacity of the Gins varies from 26 to 300 lbs. of clean Cotton per hour, according to the size.

BENSON'S WATCHES AND CLOCKS.
Watch and Clock Maker, by Special Appointment, to His Royal Highness The Prince of Wales.

Opinions of the London Press upon Benson's Great Clock and Watches in the Exhibition, 1862.

"As a sample of English clock work on a large scale, the works of this are probably the finest finished that have ever been seen in this country. No Chronometer could be fitted with more perfectness or carefully adjusted mechanism." Times, June 11 1862.

"A triumph of ingenuity."—Telegraph March 11 1862.

"A more splendid and exquisitely finished piece of mechanism we never saw." Standard, June 17 1862.

"Some of them are of great beauty and if the English watch-trade only follow up with the same spirit and success this first attempt to compete with foreigners in decorative watches, there seems to be no reason why we should not get the trade entirely into our own hands."—Times, June 23, 1862.

"Ranged around the base of the clock were the Watches which Mr. Benson exhibited, and which have been universally admired for the beauty and elegance of the designs engraved upon them. The movements are of the finest quality which the art of horology is at present capable of producing. The clock and watches were objects of great attraction, and well repaid the trouble of an inspection." Illustrated London News, November 8, 1862.

The Bienhechora offers three various modes of Insurance to its subscribers: 1st, with the loss of capital by the death of the Insured party; 2nd, without loss of capital in said event; 3rd, with mere compound interest.

In the first form the Insured party has a right to:
1 To compound interest on the bonds purchased by the capitals received by the Company.
2. To a propertionate share of the capitals and interest of those who die in their respective sections.
3. To a propertionate share of the Capitals and Interests of forfeited subscriptions.
4. To a proportion of gains resulting from increased value of the National Bonds acquired by the inversion of funds.

In the second form the Insured claims
1. Compound Interest on the National Bonds purchased by the Association;
2. A proportionate share of the Interest due on the Capitals of those who die in the respective sections, which capitals are returned to the subscribers
3. A proportion of the interest due on forfeited shares.
4. A proportionate share of the profits arising from the increased value of the National Bonds, acquired by inversion of funds.

Finally, in the third form, gives a right to the corresponding interest produced by the Bonds purchased with their subscriptions, and the successive reinvestment of such interest, effected quarterly, when the coupons are paid up by the public treasury.

So marvellous are the benefits arising from the employment of Capitals in Public Funds, assisted by the combinations effected by "La Bienhechora," based upon the Mortality Tables of Deparcieux, and the interest produced by the 6 per cent. Consolidated Bonds, that taking for a model, the result given by other companies established precisely in the same form and basis, but with an accumulative interest much inferior to that gained by the "Bienhechora," that it is enabled to present as positive the following tables showing the gradual progression of capitals for a subscription of:

SAVINGS BANK.
BANK MAUA AND CO.
No. 103 Calle de Cangallo,
BUENOS AYRES.

The immense advantages of Accounts Current are now so generally felt and appreciated in the two great emporiums of the River Plate, Montevideo and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.
The Bank of Mauá and Co. in Montevideo has already provided for the working classes in that city a safe and profitable depositary for their savings.
The sums deposited in that most important institution are daily increasing, and already reach a very large amount.
These advantages have not hitherto been enjoyed in this city by an immense number of clerks, artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness, or old age, instead of spending them in the immoral gambling, in lotteries, and other frivolities.
The Bank of Mauá and Co. of this city, following the noble example of their firm in Montevideo, now offer the same facilities in this city, and will open a Savings Bank at No. 103 Calle Cangallo, from Nine a.m till Three p.m on Week Days, and on Sundays and Holidays from Ten a.m. to Twelve m., for the reception of the savings of the classes already mentioned.
The Bank will deliver to each depositor a pass book, in which will be entered the amount deposited and withdrawn.
The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interest will be calculated up to date.
The Bank of Mauá and Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare
The bank of Mauá and Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighbourhood.
Buenos Ayres, September 19, 1863.

P.p. Mauá and Co.
WILLIAM LESLIE
